## PROFILE

With over seven years of professional experience, Shreya possesses specialized expertise in Information Technology and data protection. Her extensive background encompasses diverse domains, including IT, data protection, data privacy, cybersecurity, capital markets, insurance, and FEMA. Shreya is dedicated to advancing her knowledge in Information Technology and Data Protection, with a specific emphasis on personal data and compliance with data protection laws such as DPDA, GDPR, CCPA, DPDPA, PDPA, and other pertinent regulations. Committed to remaining abreast of the dynamic legal landscape in the digital age, she consistently strives to stay at the forefront of evolving industry standards.

She offers extensive privacy counsel to clients, providing guidance to numerous Indian and international corporations. Her expertise has been instrumental in guiding these entities to adhere to relevant privacy regulations while concurrently enhancing their business endeavors through adept technological and strategic implementations. Shreya has been a trusted advisor to acclaimed technology startups, offering her insights in both domestic and international business operations, including the establishment of operations and subsidiaries abroad. Her reliability extends to delivering comprehensive solutions across all legal facets of privacy, data protection, and information technology within India and on a global scale, spanning diverse sectors.

·She has also acted as a guest lecturer for St Xaviers' Mumbai to provide guidance to the students on information technology and intellectual property laws.

Previously, she was the global data protection manager at LexisNexis UK, Privacy Consultant at Privacy Culture, AVP - Compliance and Operations at WebEngage, Head of Legal at Think360.ai and Associate at Khaitan Legal Associates.

## EXPERIENCE

- Previously streamlined DSAR and SAR processes globally, ensuring GDPR, CCPA, PDPA, and regional compliance in MENA, EU, UK, and APAC. Revitalized worldwide privacy policies for Lexis entities, aligning them with regional data protection laws and providing ongoing risk guidance.
- Implemented robust data protection impact assessments, integrated DPIAs with One Trust, and tailored internal data protection policies for various organizational functions across MENA, EU, UK, and APAC regions. Conducted DPIAs and Privacy Gap Analyses, influencing strategic decisions and enhancing a privacy-focused tech platform. Streamlined DPIA processes, minimizing risks by 80% and eliminating third-party dependence through stakeholder training.
- Successfully implemented GDPR-aligned policies, leading to a 70% increase in employee inclusion.

- Led global expansion, overseeing subsidiary affiliates in Dubai and Brazil, while prioritizing corporate regulatory compliance and agile data protection measures and has innovatively improved policies, agreements, and processes to ensure ongoing compliance and support ISO 27001 certification audits.
